

9. (NEW) The liquid crystal device of Claim 8, characterized in that said compensation members have substantially the same thickness as said external terminals.

10. (NEW) The liquid crystal device of Claim 8, characterized in that said target object is an IC chip.

11. (NEW) The liquid crystal device of Claim 8, characterized in that said target object is a substrate of a liquid crystal panel.

12. (NEW) The liquid crystal device of Claim 8, characterized in that said adhesive material is an anisotropic conductive adhesive.

REMARKS

The purpose of this Preliminary Amendment is to clarify the translation of the application and to add new claims to provide Applicant with a scope of protection commensurate with its contribution to the art.

Favorable consideration of this application is respectfully requested.

Respectfully submitted,

Date: November 30, 1999
